

# Targets for strategic sustainability topics

## Climate Change

Reduce Scope 1 & 2 by 70%  
vs. 2016 towards net zero in 2045  
Reduce Scope 3 FLAG by 30,3% vs. 2020  
Reduce Scope 3 Energy & Industrial  
by 42% vs. 2020,  
towards net zero in 2045

## Cross Topical

Ensure 100% of prioritized  
high-risk\*\* raw materials are  
certified or with programs

Targets that  
require  
change and  
transition  
of business

## Biodiversity

Achieve 100% deforestation-  
and conversion-free sourcing of  
prioritised high-risk\* raw materials

## Circular Economy

Achieve full compliance with EU PPWR  
in Europe and 100% of packaging designed  
for recycling outside Europe

\* High risk for deforestation of beef, palm oil, soy, cocoa, and timber & wood fiber by 2025, EUDR 2025/2026 – deforestation and conversion towards 2030

\*\* High risk for e.g. child- and forced labour, inadequate working conditions and wages and negative biodiversity and animal welfare impacts.
